

Comfortably connected.

Trust the leader in HVAC controls to give your customers complete control – anywhere they go. The YORK® touch-screen thermostat with proprietary* hexagon interface seamlessly connects with YORK® LX Series models and most conventionally wired systems to provide local or smartphone-based remote control at the touch of a finger.

Designed by YORK® to work with YORK®

Engineered by YORK® to complement our LX Series systems – or any conventionally wired HVAC system – ensuring complete compatibility and efficient operation.

Easy setup and support

Near field communication and a dedicated distributor app allow for easier initial setup and ongoing, remote support through Android-equipped devices.**

Complete control at home or away

Our Thermostat 280 app for iOS and Android gives homeowners the ability to remotely control their HVAC system via Wi-Fi®, 3G or 4G – virtually anywhere with Internet access.

Always up-to-date

Installed systems connected via Wi-Fi® will receive software updates automatically via over-the-air updates – no need to return to the home.

Customer-preferred features

Easy-access home/away modes, schedule creation and exclusive quick heat/cool settings provide innovative, comfort-enhancing benefits.

*Patent-pending.
